

The purchase and establishment of a new statewide Party headquarters is a true milestone for California Democrats.

Opening in June 2014, directly following the Primary election, this building will serve as an invaluable resource for this election cycle and many more to come.

There is no limit to what our Party can accomplish. It is our hope that you will be part of this historic and much-needed change. Your investment in our Party's future will always have a high return here in California.
